A & E Tylor - Boscarnon

We are selling some of our full pedigree heifers this year as we have reached our optimum number for breeding. The Boscarnon Herd graze the coastal pastures and heathlands near Coverack in Cornwall, we are a totally grass fed herd, farming to PFLA regulations. Our animals are nice quiet traditional type Red Ruby Devons used to grazing alongside the coastal footpath, the cows are easy calvers and good mothers. Our stock bulls, Kew Dempster and Efford Down Kracker were both chosen for their pure bloodlines, solid confirmations, and good temperaments. The herd is fluked twice a year, wormed when necessary and are all vaccinated for black leg.
